The new Video Lens is another interesting search addition As you might guess from the name it's essentially a dedicated video search tool: just enter a keyword and you'll get a list of matching content for files stored locally, on YouTube or other popular online video resources.. It's easy to set up and use There's no need to create and remember new account names or pins because it works with your phone number, and uses your regular address book to find and connect you with friends who use WhatsApp already.. You can use it to send and receive text and voice messages, photos, videos, even call your friends in other countries, and because it uses your phone's internet connection it might not cost you anything at all (depending on whether you'll pay data charges).. There's plenty more (location sharing, contact exchange, message broadcasting) and the app is free for a year, currently \$0.. Sep 17, 2014 - Can anyone please provide a link to download 12 04 1? 12 04 3) And look for the iso you want to use.. You can talk one-to-one or in group chats, and because you're always logged in there's no way to miss messages.. If you're not sure how to carry out some particular action, just tap the Alt key to bring up the HUD, start typing some keywords which relate to what you want to do, and the HUD will immediately give you a list of matching functions.. And there are a stack of other worthwhile improvements everywhere you look Ubuntu's Unity desktop is reportedly now far more stable, for instance, and significant performance improvements mean the fancy visual effects work smoothly even on systems with basic integrated graphics. 773a7aa168 Nexus 2 Plugin Download
