Download Free Open Office Windows 10

org - is an open-source office productivity software suite containing word processor, spreadsheet, presentation, graphics, formula editor, and database management.. Free alternative for Office productivity tools: Apache OpenOffice - formerly known as OpenOffice.. The official versions of OpenOffice, which are accessed via are virus free There are versions of OpenOffice from other locations which can/are modified and/or infected, which is why we only recommend downloading from the above address.. If you maintained vigilance with your downloads, then it's not likely true Remember, you were talking to someone that is working for a company, in this case Dell, so it can be to his benefit to keep you from trying freeware software.. I have a new computer and all the wps files will not open in the new computer I was using Windows XP which opened the Microsoft Works files without any issues, but the new Windows 10 and Office 2016.

Download Apache OpenOffice for free The free and Open Source productivity suite.. Now, there have been reports of people downloading files/programs and getting their systems infected, however, this is usually do to not following instructions and/or being vigilant in regards to anti-virus checking.
